" the Director of Public Health, Madras.

R.O.C. No. A1-1393/42 dated 16-2-1942.

Sir,

* Establishment - Public Health - post of a second Sanitary Inspector - sanction of - solicited.

ENCLOSURES .....

5 Spare Copies

I am to submit herewith a copy of Council's resolution No. 3 dated 8-1-1942 with a copy of the letter R.F.D. No.44677 1-W dated 8-12-1941 of the Director of Public Health, Madras, and to state as follows:-

The Municipal Town of Udipi consists of an area of about 3.75 square miles divided into 12 wards with a population of 18,043 as per census of 1941. There is only one Sanitary Inspector for the Municipality. The only Sanitary Inspector finds it very difficult to cope with the ever increasing work. The passing of the Madras Public Health Act, 1939, enjoins on a Sanitary Inspector many a duty of importance and responsibility and he finds it very difficult to cope up with the work of the entire Municipal area. His work and responsibilities have increased still further on account of the extension of the provisions of the Madras Food Adulteration Act and they will be still more when the set of 35 by-laws for the control of offensive and dangerous trades are approved by the Inspector of Municipal Councils and Local Boards, Madras, with whom they are pending. Furthe the District Health Officer, South Kanara, was making in his inspection notes a suggestion repeatedly for the last four years that a second class Municipal Health Officer or in the alternative a second Sanitary Inspector may be appointed for this Municipality which is a perennial pilgrim centre. The Director of Public Health, Madras, however was pleased to remark that the question of appointing a second class Health Officer may be deferred. The Council also could not consider the question of appointing a second Sanitary Inspector as the then permanent Sanitary Inspector was drawing a salary of Rs. 105/= + Rs. 15/= personal pay per mensem and as the finances of the Council did not permit of undertaking

P.T.O.

not permit of undertaking an additional liability. Now that the permanent Sanitary Inspector retired from service with effect from 5-10-1941, the District Health Officer and the Director of Public Health urge that a second Sanitary Inspector might be appointed and that provision may be made in the Budget Estimate of the Council for the year 1942-'43. The suggestion of the District Health Officer and Director of Public Health were -- considered by the Council in its meetings held on 19-12-1941 and --- 8-1-1942. The Council ~~Council~~ in its meeting held on 8-1-1942 after mature consideration was convinced of the neeessity of appointing a second Sanitary Inspector for the efficient conduct of the Public Health administration and resolved finally that the post of a second Sanitary Inspector be sanctioned with effect from 1-4-1942. The Council has agreed to provide funds for the purpose by reappropriation.

I therefore to request that the Government may be pleased to sanction the post of a second Sanitary Inspector with ~~effect~~ effect from 1-4-1942.

Extracts from the inspection notes of the District Health Officer, South Kanara, for the years 1938, 1939, 1940 and 1941 and the application for sanction to the entertainment of a second Sanitary Inspector are enclosed.

1 and 7-8-4

K. Varadha Rao

Commissioner, U.M.

ABS 19/2-A

FORWARDED

Chairman,
Municipal Council, Udipi.

20.2.42

The town being a perennial pilgrim centre and a steadily growing one with progressive ideas, there is need for a second class Health Officer to be in charge of it, if not another Sanitary Inspector for the present. The Sanitary Inspector in charge of the Municipality now should always be ready to meet any emergency with sufficient quantity of disinfectants and other drugs and be watching the outbreak of any epidemic disease. I learn from the Commissioner that steps are being taken to provide an isolation shed to accomodate 6 patients at least shortly. I wish it would be ready by first week of January 1939 before any need comes for it.

Sd. Y. Sivaramayya,
District Health Officer, S.K

xx xx xx xx xx

Since the advent of the Public Health Act, there is more work for the Public Health Staff of the Udipi Municipality. More and more supervision in greater detail and propaganda from members of the public Health Section is needed to get on with the encreased work, with smoothness and fairness to all. Hence there is need for a second class Health Officer to be in charge of the perennial pilgrim centre. If that is not possible at least another Sanitary Inspector and a Medical Registrar may be entertained by the Municipality.

I am glad to find an enthusiastic and sincere worker in the Commissioner. Practically all suggestions offered in the last report have been complied with. The Chairman and the Municipal Council have to be complemented for the assistance and encouragement they are giving to the Commissioner for improving the town ~~iii~~ in all directions.

Sd. Y. SivaRamaya,
District Health Officer, South Kanara.

The town is improving slowly in all directions and the need for

P.T.

the need for a Second Class Health Officer to be in charge of this perennial pilgrim centre, has been shown in my last report. I repeat the suggestion for a serious consideration once again.

I am thankful to the energetic Commissioner who has gone round the town with me and taken down my suggestions for considerations. I am happy to find the Chairman and the Council taking interest in the Public Health of the Town and giving assistance to the Commissioner in Public Health Administration.

Sd. Y. Siva Ramayya,
District Health Officer, South Kanara.

xx xx xx xx xx

The Commissioner and the Health Staff are trying their best to keep the town in an attractive way, attending to the conservancy work regularly. A growing town and a perennial pilgrim centre like Udipi for its present population needs two Sanitary Inspectors to watch the Health of the town vigilantly. Hence also, is much ~~is~~ work ~~is~~ to be taken under the Public Health Act by the Sanitary Inspectors. The need for a second Sanitary Inspector has been pressed from year to year by all the inspecting officials and I would earnestly suggest it once again for the consideration of the Council to have the post sanctioned in the budget of 1942-'43.

Sd. Y. Siva Ramayya,
District Health Officer,
South Kanara.
